## Creating Best Value Solutions

Plan to attend the third annual Household Goods and Freight Forum, to be held February 22-23, 2006 in Garden Grove (Anaheim), California. This dynamic, two-day event, co-sponsored by GSA and the American Moving and Storage Association (AMSA), promises to deliver a wealth of valuable information, training, and activities to professionals handling transportation matters.

Last year's forum in Philadelphia, Pennsylvania was a great success, and the 2006 forum is sure to be even better and more dynamic! This year's event will feature sessions on GSA's household goods relocation and freight programs, and systems solutions including Transportation Management Services Solution (TMSS) and Transportation, Delivery and Relocation Solutions (TDRS) Schedule 48. Other sessions will cover transportation policy, agency perspectives, industry solutions, and much more!

Gain insight and up-to-date knowledge, from a variety of break-out sessions, speakers and industry exhibits during the event. You'll:

- Hear first-hand from those with practical experience and experts who will provide key insight and a myriad of best value solutions to transportation challenges

- Discover the latest trends, procedures, and products within the freight and household goods arenas
- Obtain up-to-date policy information and learn about its impact on various roles and responsibilities
- Learn about best transportation practices for industry and government

This event brings together the federal civilian agency transportation community and transportation industry experts. Produced in partnership with the household goods and freight transportation industries, this event is supported by the American Trucking Associations, Inc., the National Motor Freight Traffic Association, Inc., and the Household Goods Forwarders Association of America, Inc.

**Talk about best value ...  
registration is free to all federal
